LIBRARY MANAGEMENT SYSTEM

Sample Data SQL Script (sample_data.sql)

This file creates and populates the database tables with sample records for categories, members, books, and borrowing transactions.

```
-- LIBRARY MANAGEMENT SYSTEM: SAMPLE DATA -- 1. Insert Categories INSERT INTO Category VALUES (1, 'Database Systems'), (2, 'Software Engineering'), (3, 'Data Science'); -- 2. Insert Library Members INSERT INTO Member VALUES (101, 'Rahul', 'Male', '2000-05-10', '9876543210', '2023-01-15', 2), (102, 'Priya', 'Female', '1999-08-21', '9876543211', '2022-07-10', 1), (103, 'Arun', 'Male', '2001-02-18', '9876543212', '2023-03-12', 3); -- 3. Insert Books Details INSERT INTO BookDetails VALUES (1, 101, 300, 50, 20), (2, 102, 280, 40, 15), (3, 103, 350, 60, 25); -- 4. Insert Transactions / Borrowing Records INSERT INTO BorrowTransaction VALUES (1, 101, 300, 100, 390, '2026-10-01'), (2, 102, 200, 50, 350, '2026-10-01'), (3, 103, 400, 150, 460, '2026-10-01');
```
